

## 2022-23 Tuition Rates - Lemberg Children's Center

The school year tuition rates for each program type charged to all unless we have evidence of household income below \$150,000 from July 1 - June 30, 2023. Weekly rates apply to summer program. We use this sliding scale to determine your tuition and scholarship if your anticipated gross annualized household income for the period starting July 1, is less than \$150,000 per year (wealth included). This income based scholarship is dependent funding available and at the sole discretion of the Executive Director.
